## FINDING THAT IDEAL VACATION SPOT:

---

Before you can book a vacation, you need to determine three things:

- Where you're going to stay
- When you're going to stay
- How long you're going to stay

To do this, you need to search the available inventory at the resorts in the area of your choice during your desired vacation time. The process is similar regardless, but your options will vary greatly, depending on the above parameters.

## FULL-WEEK STAYS:

---

Searching for full-week stays is a straightforward process.

### ENTERING THE SEARCHING CRITERIA

1. Log into the InnSeason Vacation Club Website to get to the Owner's Inn page.
2. Click on "Overview" to access your account information.
3. Click on your contract to view your available points. This will help to determine your search criteria.

**NOTE: If you have more than one contract, check each one to see your available points. You cannot see a combined total, but when you book a stay, the reservation system will automatically combine the points from your contracts and will show from which account(s) the points used originated.**

### SHORT STAYS:

Short Stays are a terrific way to maximize the value of your points. They're especially helpful if you have a relatively low number of points available, as you can often get one or more stays up to 6 nights in length for fewer points than a single 7-night stay.

Using the same search criteria we used above for 7-night stays, but reducing the stay length to 6 nights, the number of stays available more than tripled, from 27 to 84! The Points Required dropped substantially, too.

#### NOTES:

- **When you reduce the stay length, only stays of that specific length will be displayed.**
- **The Points required is determined by the season, size of the unit and days of the week selected. Weekend nights (Friday and Saturday) require more points than other nights of the week.**
